

# Eliminate & Organize Trading Related Paper Work While Keeping Your Trading Diary Up To Date

## Proven Fact:

*Professional traders realise that trading mistakes have the potential to diminish even the most impressive trading portfolio.*

**OTrader** has been specifically designed to assist global traders by eliminating portfolio mismanagement and establishing a **disciplined road map to success.**

## What you will get from OTrader®:

- Ability to track shares and options in the one portfolio
- A trader's diary to record your progress and find your trading strengths.
- A watch list to track upcoming trades of interest.
- Automatic calculation of brokerage, GST and OCH for accurate trading records.
- 16 reports to monitor and enhance your trading performance.
- The ability to set your own profit and loss targets to suit your trading style.
- Unlimited portfolios to allow easy switching from paper trading to live trading.
- Trailing profit targets to lock in profits as you trade.

**FOR FFI GRADUATES ONLY:** The exclusive **FFI** trading system built into the software to ensure you adhere to the **FFI** rules.

## What OTrader® users say:

"I would never stop using such a time saving and beneficial trading tool as OTrader has made my record keeping and trade analysis so simple." - **Travis D. Adelaide**

"I have no hesitation in recommending this product to any trader who is committed to achieving." - **Jason D. Perth**

"OTrader is easy to use and very visual. Having used other trading registers costing several times the price I found the latest version of OTrader to be excellent value for money, and very easy to use and understand. Would highly recommend it." - **Brook P. Perth**

"OTrader has been very well thought out. It is very user friendly and makes trading a pleasure not having to keep track of information in a number of different places." - **Bill O. Brisbane**
